

Kasaka Water Project

Water is Life

Uganda in East Africa is on the Equator. It has 4 seasons:

2 wet seasons

Mid-March to May

Mid- September to November

2 dry seasons

June – July

December to February

The dry season is now longer and drier. It used to have some rain, now there is next to nothing. The wet season is unpredictable.

January – February 2018

Present Situation

Dried out Garden 2018

Dry Passion Fruit Orchard 2018

Water from a Dugout

What the Project will do

Garden with Cabbages

Diocesan Passion Fruit Orchard with Water
